

## **It all about making life easier!**

Dressability designs bespoke clothing and alter garments for children and adults who have disabilities, and people over 65 years old. The work we do helps people who have problems with everyday dressing/undressing and gives them a renewed sense of self-esteem, independence and dignity. We are the only service in the UK that offers this service.

On the high street, clothes are not usually designed for people who have to sit for prolonged periods, or have limited mobility/dexterity and certainly not for people who are much larger or smaller than average. This results in many people who have a disability feeling that their clothing options are very limited and often not reflective of current trends and styles.

By designing bespoke clothing or altering the garments that our clients buy off the peg, they get to wear the clothes of their choice as well as suiting their own individual needs, for example concealing medical aids or replacing buttons with zips, Velcro or self-sealing magnets.

A clothing adaptation for a client will also benefit others such a carer or family member, as it can save many hours each week as clothes will be easy to take on and off. Clients can often find dressing a painful and distressing experience, by altering clothing it helps to alleviate these problems and giving them a better quality of life.

We are based in Swindon, but if clients are unable to visit our premises, then free home visits within a 25-mile radius can be arranged through our outreach service.
